Asmin Bhujel

Security Analyst at IBM

Bangalore Urban

Summary

I'm currently working as a SIOC Analyst under IBM Security where I perform the following activity:

- Analyzing the offenses triggered in SIEM (QRadar) tool and classify whether it as a potential threat or not.
- Analyzing the captured payloads of Checkpoints Firewall, NIPS, Endpoint, Proxy & other more than 10 CJ's.
- If a potential threat is observed collect the evidence and findings. Logged the Incident and delegate the mitigating solutions to the support team using the Resilient IR tool.

I'm deeply focused on learning and improving my skills.

Experience

IBM

Security Analyst

August 2019 - Present (1 year 6 months)

Bengalure, India

- Analyzing the offenses triggered in the SIEM tool (QRadar) and classify whether it as a potential threat or not.
- Analyzing the captured payloads of Checkpoints Firewall, NIPS, Endpoint, Proxy & other more than 10 CJ's.
- If a potential threat is observed collect the evidence and findings. Logged the Incident and delegate the mitigating solutions to the support team using the Resilient IR tool.
